MATERIAL HEALTH

EUCED	Eurocoustic panels are manufactured using mineral wool certified by the European Certification Board for mineral wool products (EUCED), which independently confirms that mineral wool is produced in conformity with the Note Q of European Regulation (EC) No 1272/2008 and therefore classification as a carcinogen does not apply.
REACH	Eurocoustic products comply with the REACH regulation of the European Chemicals Agency and therefore do not contain any Substances of Very High Concern (SVHC) with potential negative impacts on human health or the environment above 100ppm.

CLEANABILITY

The ceiling surface does not retain dust, which makes the panels easier to clean. The ceiling can be cleaned using a light brush or a vacuum cleaner. This type of cleaning will help extend the service life of the ceilings.

INSTALLATION

- You are advised to ensure that air can circulate between the rooms and the plenum to balance the temperature and pressures on each side of the ceiling.
- Tiles can be cut with a craft knife without generating any noise or dust.
- The direction in which the panels should be installed is indicated on the back of the panels.
- Contact us if any mineral wool is to be laid in the plenum.

THERMAL PROPERTIES

Acoustished® panels are tested for thermal resistance according to EN 12667 and ACERMI-certified according to EN 13162.

	R (m ² ·K/W)
Acoustished A 40	1,10
Acoustished A 80	2,20

MECHANICAL PROPERTIES

According to EN 13964 - Annex F, Acoustished® ceilings are classified as C/90N/m² (40mm) and C/130N/m² (80mm). This value should be kept in mind if any mineral wool is to be laid in the plenum.

CE

Eurocoustic ceilings are CE marked according to the European harmonized standard EN13964:2014. CE marked construction products are covered by a Declaration of Performance (DOP) which enables customers and users to easily compare performance of products available on the European market.

PRODUCT RANGE

Acoustished® packs are shrink-wrapped for protection. Pallets are wrapped in plastic film and must be stored under cover.
