

Albias community center

Albias - France

THE PROJECT

The town of Albias, located in France's Tarn-et-Garonne region, decided to renovate its community center. The 1,600m² center represents the town's key social venue and hosts various events and indoor markets.

Saint-Gobain Eurocoustic was chosen to provide an acoustic ceiling solution capable of fitting the center's rounded roof structure.

THE CUSTOMER'S REQUIREMENTS

- Product suited to large areas
- Acoustic comfort
- Visual comfort

OUR RESPONSE

ACOUSTISHED® A40 tiles which are suitable for large areas and high roofs. White tiles were used to increase the overall level of brightness. ACOUSTISHED® A40 tiles also deliver excellent acoustic performance by absorbing noise, thereby making it easier for people to hear and understand one another.

KEY PRODUCT FEATURES

- Acoustic absorption: $\alpha_w = 1$
- Fire reaction: A1 for white
- Light reflection: coefficient greater than 87%
- Superior flexural strength
- IAQ: Class A+
- High-density panel
- 1500 x 1000 mm module
- Aesthetic choice: white and seven different veil colors available
- Can be installed in ceilings and walls

ACOUSTISHED® A40

- **Oversize design:** the 1500 x 1000 mm modules meet the design constraints inherent in large areas, as well as simplify installation and create a more harmonious aesthetic effect.
- **Brightness:** white ACOUSTISHED® A40 tiles offer excellent light qualities (light reflection & diffusion, matt finish, pure white, etc.), which reduces eye strain and improves lighting conditions in the building.
