SAINT-GOBAIN

PROJECT

The innovative Kinepolis multiplex is located in Fenouillet (north of Toulouse) and is the first full-laser movie theater in France. With laser projection systems, eight screens and 1,161 seats, this multiplex has been built in Fenouillet's all-new Galerie Espaces shopping mall.

CUSTOMER REQUIREMENTS

- Seamless color match between the ceiling tiles and grids
- A fully discreet ceiling
- Maximum acoustic comfort

OUR SOLUTION

EuroNoir TONGA® A22 tiles, which are recognized for their acoustic performance and decorative qualities, in combination with ultramatt black Quick-Lock® Hook-On grids and a Primary Carrier System, essential for high roofs.

EURONOIR TONGA® A22

- Tonga® A22 tiles deliver exemplary acoustic performance with an acoustic absorption coefficient of $\alpha_w = 1$, which guarantees superlative sound quality (intelligible speech, faithful and accurate reproduction of sound effects, etc.) and comfort for spectators.
- Viewing quality is achieved by using matt black ceiling tiles and grids to avoid any light reflections, regardless of where viewers are sitting in the auditorium.

PRODUCT BENEFITS

- Acoustic absorption: $\alpha_w = 1$
- Fire reaction: A2-s1, d0 for black
- 15-year warranty for the complete system (tiles and grids)
- Indoor Air Quality (IAQ): A+ Class

ULTRAMATT BLACK QUICK-LOCK® HOOK-ON

- The ultramatt black Quick-Lock® Hook-On grids maximize viewing quality by avoiding any reflections, regardless of where viewers are sitting in the auditorium.

Saint-Gobain Eurocoustic

1, place Victor Hugo
92411 Courbevoie Cedex - France
Tel: (+33) 1 56 37 02 40
Fax: (+33) 1 56 37 02 69
www.eurocoustic.com

- A color specialist was consulted to guarantee flawless visual consistency between the EuroNoir TONGA® A22 tiles and the ultramatt black Quick-Lock® Hook-On grids.

PRODUCT BENEFITS

- Matt finish for greater viewing quality
- Fire reaction: A1-s2, d0
- Indoor Air Quality (IAQ): A+ Class

PRIMARY CARRIER SYSTEM

- Primary Carrier system is the essential solution when the plenum is higher than 2 m.
- It is used to span long distances between suspension points (up to 6.50 m), while withstanding heavy distributed loads up to 50 kg/m².

PRODUCT BENEFITS

- Wide range of runners: four heights and different thicknesses
- Fire reaction: A1-s2, d0
- Indoor Air Quality (IAQ): A+ Class
- Complete turnkey system
- Compatible with all types of load-bearing structures

CITY: Fenouillet

COUNTRY: France

BUILDING: Movie theater

COMPLETION DATE: 2016
