

La Naure elementary school

Payrin-Augmontel - France

THE PROJECT

The town of Payrin-Augmontel launched a complete renovation program for the La Naure elementary school.

The architect was faced with the challenge of offering a ceiling solution that would fit the inverted pyramid design of the roof structure in the main room.

Saint-Gobain Eurocoustic was chosen to fit the modular ceilings throughout the school.

THE CUSTOMER'S REQUIREMENTS

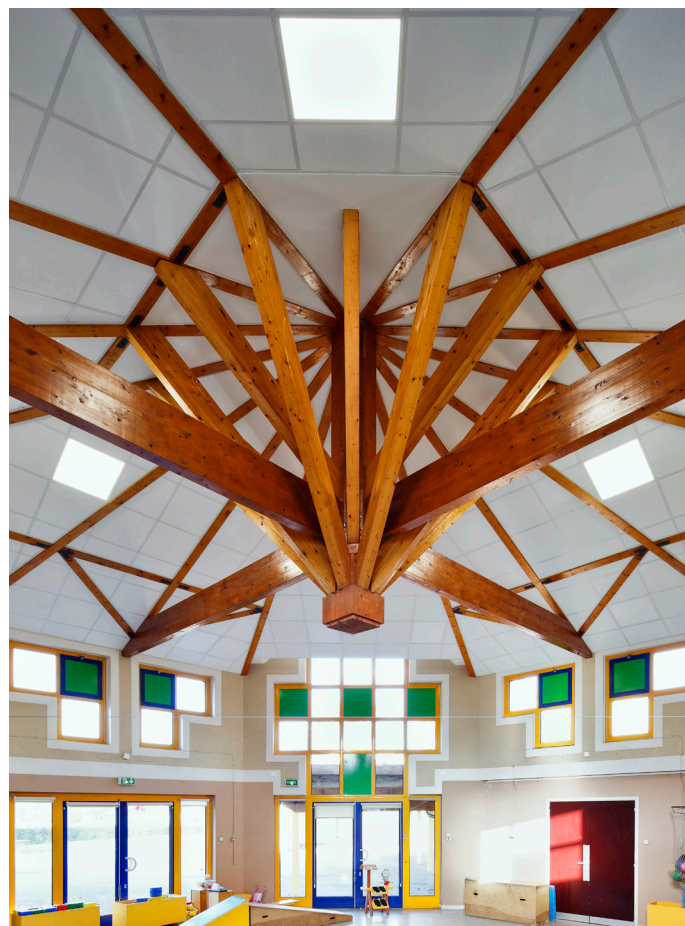

- Stylish design
- Acoustic comfort

OUR RESPONSE

TONGA® A22 tiles to ensure acoustic absorption and provide the bright and stylish decor required for occupants' comfort and well-being.

TONGA® A22

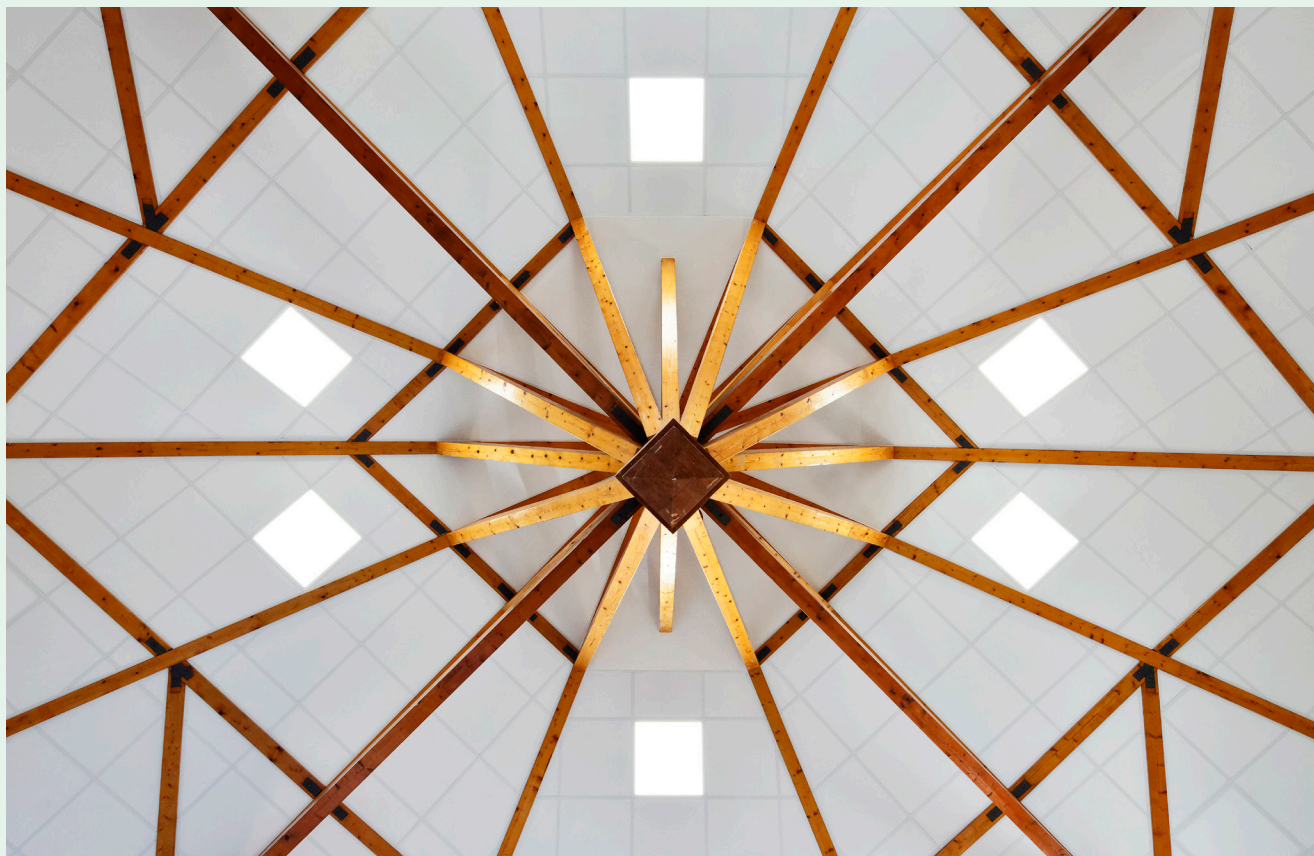

- **Acoustic comfort:** thanks to their optimal acoustic absorption performance of $\alpha_w = 1$, TONGA® A22 tiles improve acoustic comfort by reducing ambient noise to ensure that conversations are clearer and more intelligible.
- The Eurocoustic range of decorative solutions brings a specific identity to each classroom. The dynamic colors produce a fun, yet inviting atmosphere.
