

# Bodegraven offices

Bodegraven - Netherlands

## THE PROJECT

Eurocoustic ceilings were chosen to refurbish various office spaces in the city of Bodegraven in the Netherlands. The owners focused their choice on the new Eurocoustic decorative range to bring a warmer, more inviting feel to the meeting rooms, briefing spaces and social areas, while offering an acoustic solution geared towards the site's needs.

## THE CUSTOMER'S REQUIREMENTS

- Acoustic absorption and comfort in high traffic areas
- Eye-catching solutions in collective areas

## OUR RESPONSE

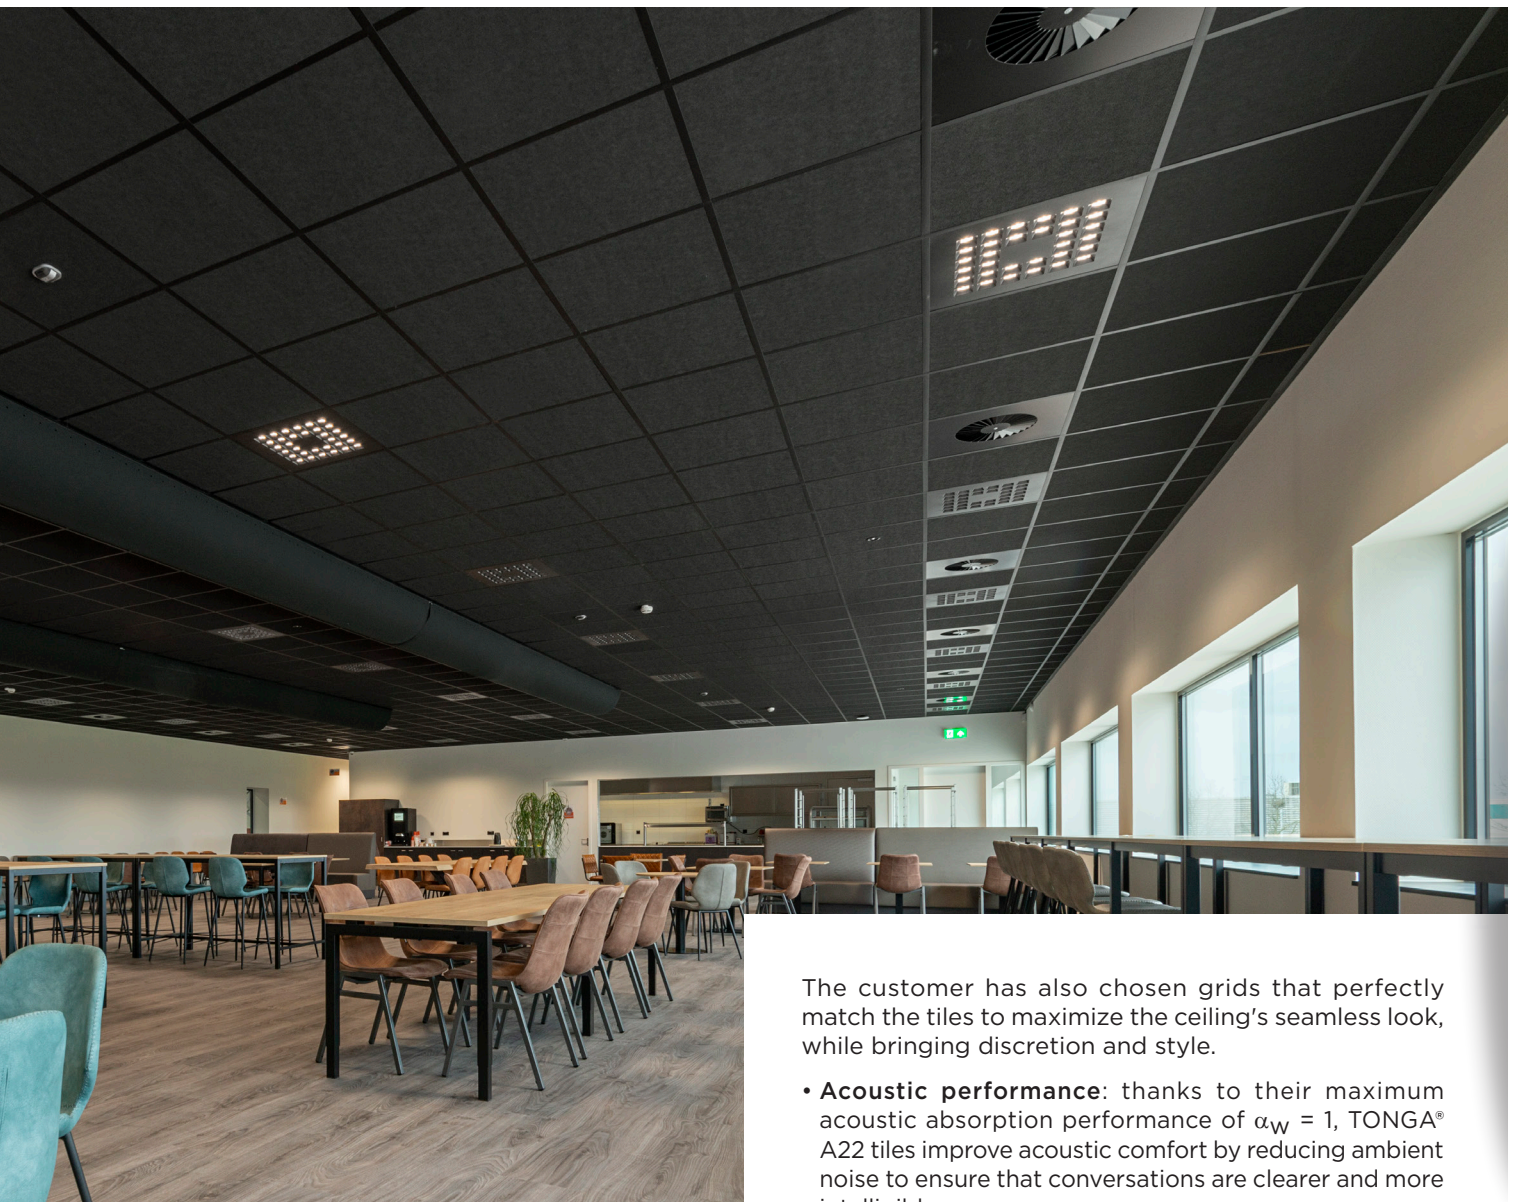

### TONGA® A22 TILES IN WHITE, EUROCOLORS NOIR V7 AND CALCAIRE D2

In the areas featuring such social spaces as the kitchen and collective workspaces, it is important to use stylish ceiling materials offering high acoustic performance that are appropriate to the way in which occupants use those areas.

To bring a modern and suitable touch to the workspaces and relaxation areas, the customer chose TONGA® tiles in White, EuroColors Noir V7 and Calcaire D2. These colors were chosen for their harmonious effect, while helping identify each space and its functionality (cafeteria, offices, kitchen, cloakroom, etc.) and taking advantage of the products' acoustic qualities.

In the open and shared office areas, these systems reduce ambient background noise and improve concentration. They also create a friendly atmosphere in the dining areas by allowing people to talk without having to raise their voice.

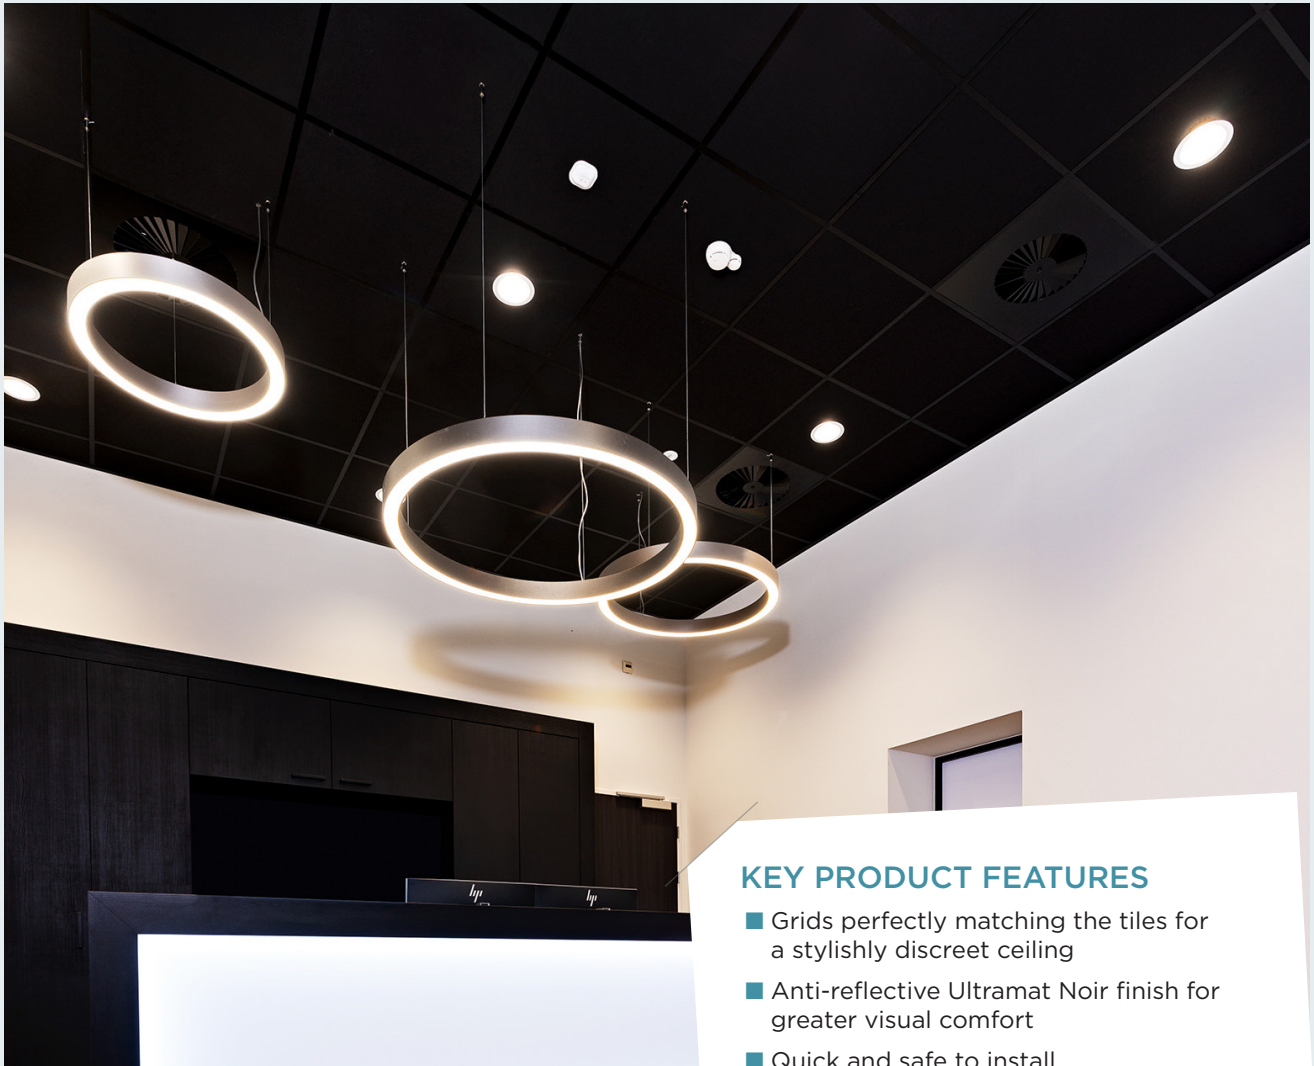

The customer has also chosen grids that perfectly match the tiles to maximize the ceiling's seamless look, while bringing discretion and style.

- **Acoustic performance:** thanks to their maximum acoustic absorption performance of  $\alpha_w = 1$ , TONGA® A22 tiles improve acoustic comfort by reducing ambient noise to ensure that conversations are clearer and more intelligible.
- **Stylish design:** TONGA® A22 tiles are available in 40 plain colors (EuroColors) and 6 new designs (EuroDesign), as well as in a wide choice of dimensions. For the offices, the customer chose tiles in dimensions of 600x600 and 1,200x600 mm.

### KEY PRODUCT FEATURES

- Acoustic absorption:  $\alpha_w = 1$
- Reaction to fire: A1 (white) and A2-s1, d0 (colors)
- Light reflection: > 87% for white
- 100% flat regardless of the moisture content
- Reduction in artificial lighting needs
- Natural light intake > 6% for white
- Over 600 format and veil combinations
- IAQ: Class A+

## T24 QUICK-LOCK® GRIDS IN WHITE, ULTRAMAT NOIR AND CALCAIRE D2

The customer has also chosen grids that perfectly match the tiles to create a more modern appearance.

The Quick-Lock® grids boast a number of advantages, including fire safety performance and easy installation.

Their Ultramat Noir version improves visual comfort and brings style and sophistication, since they blend seamlessly with the matching black TONGA® tiles. Using materials with dark tones guarantees a highly discreet ceiling without any reflections, regardless of where people are standing in the room.

Finally, the Quick-Lock® grids in the Calcaire EuroColor adds a sophisticated and discreet touch to the ceiling, since it perfectly matches the Calcaire TONGA® tiles.

### KEY PRODUCT FEATURES

- Grids perfectly matching the tiles for a stylishly discreet ceiling
- Anti-reflective Ultramat Noir finish for greater visual comfort
- Quick and safe to install
- Reaction to fire: A2-s1, d0
- IAQ: Class A+
